RE: Street Closing

Beginning at 8:30 a.m. on Monday March 21, 2016, the City of Ogallala will have a contractor working on removing trees for the West 5th street project. During this time there will be temporary lane closures along West 5th Street. They will start removing a tree between West A & B Street along 5th street and continuing moving west until all trees are removed. The tree removal process is expected to take approximately one week and will result in lane closures throughout the week.

If you need to drive in this area, please use extreme caution. Thank you for your patience during this time.
